Naples, Nov. 7.

OUR Viceroy the Marquis *de los Velez*, is continued in this Government for 3 years longer, and has thereupon been complimented by all persons of quality here. The City of *Messina* begins to flourish again, a great many Strangers, of divers Trades being come thither, and supplying the rooms of the Messineses, who have, some voluntarily, and some by constraint, left that City.

Genoua, Nov. 11. This Senate has sent to the Duke of *Tursis*, acquainting him that several French Gallies are to winter here, and to desire his Squadron will not come hither, to avoid all dispute between them and the French concerning Salutes.

Legorn, Nov. 13. We have an account of an odd accident lately happened to a Privateer of 30 Guns and 200 men, commanded by Captain *Crivellier* of *Savoy*, which was thus. A Quarrel happening between the Captain and the Gunner of the Vessel, and the former giving the other a Box on the ear, he resolved to be revenged, and by means of a Train of Powder, and a piece of Match conveniently placed, to blow up the Ship, which he did accordingly, the Captain, Ship, and all his men being blown up; but the Author of this wickedness took care to escape himself.

Venice, Nov. 17. The Senate has ordered the Prayers of 48 hours to be made in the great Church of St. *Marke*, to implore the Divine Goodness to divert the Plague, which has already infected the frontiers of *Italy*; and in the mean time no person is permitted to come hither without a Letter of Health.

Prague, Nov. 18. The Count of *Starenberg* is made Governor of *Philipsburg*. We have no farther account, then what we gave you in our last, from *Munieke*. The Plague continues very violent at *Vienna* and in *Hungary*. At *Neustadt* there are very few Inhabitants left.

Hamburg, Nov. 28. This City has made its first Payment of 70000 Crowns to the King of *Denmark*. The Commissioners of *Sueden*, and the Princes of *Lunenburg*, have had several meetings, and, it's said things are in a fair way of being adjusted between them, and consequently that *Bremen* will be suddenly restored to the Suedes. The Elector of *Brandenburg* goes on with the disbanding of his Troops. Some Regiments of his Electoral Highnesses are come into the Territories of the Duke of *Mecklenburg*, and have taken quarters there. This day the Duke and Dutchess of *Holstein*, who have had their Residence here for some years, parted hence for *Rheinbecke*; but whether they will continue there or return hither is not known. The Town of *Stralsond* is in much perplexity, Count *Conigsmarke* having taken away their Priviledges, and caused several of their Magistrates to be arrested, and the Deputies they sent to the King of *Sueden* not having been admitted into his presence.

Strasburg, Nov. 22. It was said some time since that there was great likelihood of accommodating matters between the Most Christian King and the Duke of *Lorrain*, and that the latter would be speedily restored to his Countries; but at present there is nothing spoken of it and those that pretend to know best, tell us, that the Duke of *Lorrain* remains fixed in this resolution, Never to return to his Countries, unless it may be upon such Conditions as become a Sovereign Prince. It is the news of these parts that the French King will be at *Metz* or *Nancy* before *Christmas*, though others think it is only the Dauphin that comes thither to meet his Bride the Princess of *Bavaria*; for it is certainly said that that Marriage is so far agreed, as to want only the approbation of the Most Christian King, which some would doubt of, because the Elector of *Bavaria* has not embraced the Proposals made to him of a Marriage between him and Madamoiselle *de Valois* the Duke of *Orleans* Daughter.

Cologne, Nov. 28. Prince *William* of *Furstemberg* remains still here, expecting the return of an Express which he sent with Letters to the French Court. Three days since the Chapter of this Diocess, being assembled, he assured them that the French would in 15 days, or 3 weeks at farthest, quit this Archbishoprick; but that they meant to keep *Wesel*, *Lingen*, and *Dueren*, till such time as they are satisfied for the Arrears of Contributions due to them. Our Letters from *Bavaria* give an account, that the Marriage between the Dauphin and that Princess was as good as concluded.

Liege, Nov. 28. The French are now in good earnest going to quit these parts. The French Resident has taken his leave of our Magistrates, and assured them, that *Viset*, *Verviers*, and *Huy*, will be very suddenly evacuated; but as for *Dinant* the French seem resolved not to quit it, till the Spaniards deliver them *Charlemont*, as was agreed by the Peace.

Brussels, Decemb. 5. The Commissioners appointed by his Excellency are now at *Courtray*, and have had several Conferences with those of *France*, for the adjusting the Limits, in which they have not as yet been able to come to any Agreement. Our Letters from *Liege* give us an account, that the French are leaving that Country, as likewise *Juliers* and *Cologne*. On Saturday arrived our Spanish Letters, which informed us that our King had consummated his Marriage at *Burgos*, and that their Majesties were expected the 10th instant at *Madrid*, where great preparations are making for their reception.

Hague, Dec. 1. Not any thing of moment has passed since our last in the Assembly of the States
